Two Colored Men Put to Death by Infuriated Citizens at Rockport, Ind.

HAD BRUTALLY MURDERED A BARBER. THE NATURE OF IT NOT MADE PUBLIC

The Mich Took the Cuiprits From the Jali and Hanged Them to a Nearby Tree.

One of the Murderers Confessed, Implicating the Othac One-The Swinging Hodies Were Filled Full of Hallels.

Rockport, Ind., Dec. 17 .- Two Negroes, Jim Henderson and Bud Rowlands, who waylald, hrutaily murdered and robbed Hoille Simons, & white barber, early Sunday morning, were lynched in the jail yard by a mob of 1,000 frenzied citizens Sunday night. The Negrous were arrested early in the moruing, and, although Rowlands' ciothing hed blood stains on it, the men claimed they were innocent of the crime.

As soon as their arrest became known and it was proven beyond doubt that they were the guilty parties a mob of bloodthirsty citisens armed with sledge hammers, ropes and gune were running to the jall.

Using a telegraph pole as a battering ram and caved in the side wall of the iall. The door of Rowlands cell was then quickly broken in with sledge hammers and he was dragged from the jall to the east side of the court yard, where a noose was placed about his neck.

He was given time to make a statement, in which he implicated Jim Henderson and another Negro. Rowland theu begged pitcously for mercy, but the mob swiftly swung the confessed murderer to a tree and riddled his body with bullets.

Leaving the body of Rowland dangling from the limb of the tree, the mon rushed back to the jall and attempted to burst open the cell occupied by Henderson, but before the steel bars yielded to the blows of the sledges some one in the crowd fired upon the terrified Negro as he cronched in the corner of his ceil. A few moments more and the door of the ceil was broken in. The Negro, more dead than alive, was dragged et a rope's end to the court house yard and swung on the tree beside the body of Rowlaud.

Firing a parting volley at the swinging bodies, the mob, eager for another vietlm, hurried away to locate the other Negro implicated by Rowland in his confession. He was found at a hotel where he was employed as porter. The Negro escaped to the roof of the huilding, and Manage: Debruler auoceeded in convincing the mab that the porter had nothing to do with the orims, proving an alibl for him.

The Negroes' viotim, Hollia Simons, most brutal manner one aquare from ments. Just what is the nature of the main street of the city as he was the objection raised by Great Britain ried the receipts of the day at his

place of husiness. Walter Evans, one of the young men who attempted to save Simons' moval of the murdered man's remains almost auffered nervous collapse. Sunday night he witnessed the lynching, and he lost his reason.

The dead man's wife is prostrated. and it is helieved she will die from the shock. Hollie Simons came from Whalow, Ind., some years ago, and was a popular young man.

MANY ENGLISH CAPTURED.

Brillah Troops Badly Beaten in a Battle at Nooligedacht-Four Officera Killed.

London, Dec. 15 .- Lord Kitchener rewere compelled to retire by Comkilled. The other casualties were not reported. Lord Kitchener's official disputch to the war office is as fol-

"Pretorin, Dec. 13.-Clemente' force at Nooitgedacht, on the Megallesburg, was attacked at dawn to-day by Delarcy, reinforced by Beyers' commando from Warmbath, making a force estimated at 2,500. Though the first attack was repulsed, the Boers menaged to get atop of the Magaliesburg, which was held hy four companies of the Northumberland Fusileers, and were thus able to command Clements' camp. He retired on Hekpoort and took up a position on a hill in the center of the valicy. The casualtles have not been completely reported, but the fighting was very acvere and I deeply regret that Col. Legge, of the 20th Hussars, and Capts. Macbean, Mordock and Atkina were killed. Reinforcements have left here."

Contenot for Seeds.

Washington, Dec. 15 .- The lowest seeds for congressional distribution during the fiscal year 1902, received Kruger. by the ngricultural department, was the New York Market Gerdeners' association, \$101,975. Among other esthuntes submitted were the Henry of the cotton exchange Thursday vot-Philipps Seed and Implement Co., To- ed to make December 24 a holiday. ledo, O., \$113,065, and the Ullathorne The motion to close on December 81 Seed Oo., Memphis, Tean., \$119,967.

DOUBLE LYNCHING. A FURTHER DELAY. FIFTY-SIXTH CONGRESS

British Minister Now Demands a Modification of a Point in the Joint Note.

This Stops Peace Negotiations, as Ali Envoys Must Communicate Anew With Their Governments.

The Russian Government Repudlalea the Charge That the Yang Tann-Shan Hal Kwan Hallread Was Held Illegally.

Tlen-Tsln, Dec. 15 .- According to credible sources of Chinese information Emperor Kwang Su will agree to the following ten demands of the powers:

First-Indemnity to the amount of 700,000,000 taels, payable in 60 years and guaranteed by the Li Kin.

Second-The erection in Peking of a sultable monument to the memory of Baron Von Ketteler.

Third-An imperiel prince, a near ralative to the emperor, to go to Herlin to apologize and to express regret for the murder.

Fourth-Foreign troops to hold the lines of communication between Taku and Peking.

Fifth-I'unishment of the Boxer officials. Sixth-Candidates from districts where anti-foreign outrages have been perpetrated not to be allowed to com-

pete in the Chinese examinations in l'eking for five years. Seventh-Abolition of the Tsung IA

Eighth-Foreign envoys to have access to the emperor at all times. Ninth-Importation of arms and ammunition into the province of Chi

Li to be abolished. Tenth-The land and sea forts oc-

tween Shan Iiai Kwan, Taku anil Peklug to be destroyed. St. Petersburg, Dec. 17 .- The offi-

cial Messenger publishes an inspired statement as to the views of the liussian government concerning the Yang Taun-Shan Ilai Kwau raiiroad, repudiating the charge that the Russiana have soted lilegally in holding the line, contending that Russia's action was necessitated by military consideratious, declining to recognize the British as owners of the line, but admitting that they have the preponderating financial interest, and finally promising to restore it to the former administration after the foreign troops have evacuated the province of Chi Li.

Peking, Dec. 17 .- Definite instructions, supplementing Saturday's communication from London, have been raceived by Sir Ernest Mason Satow. the British minister, and he now demands a modification of a point in the foint note which the foreign governments generally regard as important. This means further delay, as the war revenus raduction bill. The all the ministers must communicate was waylaid and murdsred in the anew with their respective goverugoing to his home from his barher the ministers decline to say, but they shop at 2 o'clock Sunday morning. admit that the new demand will in-As was customary with him, he car- volve a good deal more diplomatic procedure.

Washington, Dec. 17.—Officials hera are at a loss to understand the reasons for the important modification life, and afterward assisted in the re- in the joint Chinese note which it is reported the British minister to Peto his home, was greatly affected and king is to demand before signing that document preparatory to its presentation to the Chinese plenipotentiaries. They have no information on the subject, as nothing has been heard from Mr. Conger on the matter for some days. The understanding here has been that the joint note as agreed upon by the envoys was in the main satisfactory to the British government. She simply desired a slight amendment, said to be in the nature of a mere change in style of language to be used, rather than any amendment to the scope of the agreement. This dld not conflict with any of the principles held out ports that after severe fighting at for by our government. Such being Novitgedacht, Gen. Clement's forces the case, it was expected that the signature of the British minister would mandant Delarcy with a force of 2, be promptly affixed to the agreement 500 men. Four British officers were and the note soon presented to the

> Boors to Settle In German Afelos. Berlin, Dec. 17 .- According to the Lokal Anzeiger, 50 Cape Colony Boers, now in Ansterdam with their familiea, have been granted permission to aettie in German Southwest Africa, the German government having just assented to the purchase of lands hy them in Damaraland and Great Hamequinland. The Boers will leave Amsterdam January 5.

England Wanta Turkey to Sellle. Constantinopie, Dec. 17 .- Owing to the auccess of the United States in pressing claims for compensation in connection with the Armenian disorders, Great Britain is now urging the Ottoman government to pay similar claims put forward by British aubjects. It is said that energetic means will be taken to obtain settlement.

The Kalaur's Saub.

Second Seasion.

Washington, Dec. 12. - Senale-Bills introduced Tuesday: By Senator Soott, directing the secretary of the tressury to pay Edward Tear-ney, of Jefferson county, West Vir-glula, and Walter Shirley, also of Jefferson county, West Virginia, \$4,243 and \$5,739 for supplies taken by United States troops during the civil war. The first speech in opposition to the ship subsidy bill in the senate was delivered by Mr. Ciay. The oleomargarine bill, just passed by the house, was referred to the committee on agriculture.
llouse—Bilis introduced Tuesday:

To pension T. B. Lehane at \$24 a month; to pension John P. C. Shanks, colonel of the 7th Indiana cavalry, at the rate of \$30 a month; directing the secretary of the treasury to just to 0, W. Ratieff, of Ivy, W. Vs., \$250 for building material taken by United States troops during the civil war. The debate on the war revenue reduction hill opened Tuesday.

Washington, Dec. 18.—Senate—No business was transacted Wednesday. The members went over to the house to participate in the centennial celebratlon over the removal of the national capital to Washington.

House-No business was transacted owing to the centennial celebration ceremonies in the house.

Washington, Dec. 14 .- Senate-In srecutive session on Thursday an amendment to the llay-l'auncefote treaty was passed. This amendment In the essence will permit the United States to defend an isthmian canal, hut not to fortify it. For nearly three hours Thursday Mr. Hanna, of Ohio, addressed the senate on pending ship subsidy bill. While he had spoken heretofore on the floor of the senate, his effort Thursday really was his first formal speech to the body since he became a member

House-Bills Introduced Thursday: To pension William Gould at \$35 a month; to pension James Mantack at \$20 a month; to pension Authory McCull at \$20 a month; George J. Wilson, Joseph Farusworth, Nuncy J. Marple at \$20 a month; Benjamin J. Dewces at \$24 a month; to pension William II. II. Miller at \$50 a month; to pension Fannle Wigginton at \$30 a month; directing the secretary of the treasury to pay \$130 to Nancy Gates for supplies taken by United States troops.

Washington, Dec. 15 .- Senale-Nearly all of Friday the senate was importance was trausacted in brief open session except the adoption of the house resolution provid ing for a holiday recess to extend from Friday, December 21, to Thurs-

day, January 3.

House—The house adjourned Friday without disposing of more than half the war revenue reduction bill. An effort to reduce the tax ou beer falled. Mr. Smith (Mich.) had an amendment passed compelling the express companies to pay for atamps express receipts lusteed of the shipper. A reapportioument hill was introduced making the membership of the house \$57.

Washington, Dec. 17 .- No business of importance was trappacted in the senate Saturday.

House-The houss Saturday passed amendment pisced in the till to tax express receipts was defeated by a vote of 125 to 139. Mr. Powers (Vt.) offered an amendment providing that the income tax would not be levied on the estates of persons who died prior to June 13, 1899. It was adopted-84 to 43. The pension appropria-tion hill, carrying \$145,745,230, elso passed. Representative Norton introduced the following bill: Providing that any regularly enlisted soldler of the war of the rehelilon who served, by detail or assignment, on duty as a commissioned officer, shall be tied to the same pay as a regularly commissioned effect for duties so performed, and shall be considered as promoted and mustered to that rank. whather commissioned or not, and chall be entitled to the same grade of pension as is provided for officers of the rank in which satd coldier was ansigned to duty.

this time the lifeboat was sheathed with lee, the sens having frozen on the planking, and being thus weight. A Deed of Daring and Devotion Which ed down, it was considered prudent to take in only nine of the vessel's crew. With these a start was made for the shore, which was regained after another valiant and perilous passage.

Two more trips were made to the wrecks by the life-savers, their boat at times being flooded and partially beaten back, and once nearly thrown end over end on the reef. The men themselves were drenched with ley water, which made their work much harder to endure.

Their herole and Indomitable efforts were crowned with full success, every one on the two vessels, 24 ln all. being saved. Many of these were almost frozen and nearly sturved, and were immediately taken by the citizens to the fires on the beach where there was food.

I enunot do hetter here than to quote from the report of the general superintendent of the life saving service touching this memorable achievement of the Ship canal erew: "In have come rushing through the night and tempest over so many snowy leagues to the rescue of a group of despairing sailors, and then, with hearts greater than danger, to have gone out again and again through the drealful breakers and brought every man ashore, was a feat so boldly adventurous that the current accounts of it in the public journais roused, at the time, the whole lake region to intense enthusiasm, in secret session, discussing the liay- and sent thrills of sympathy and ad-l'auncefote treaty. No business of miration through the country."

WITCH HAZEL SEEDS.

They Are Expelled from the Pods with a l'acce and sonnil of Palry Actillecy.

What boy or girl who has ever gone nutting in October has not been arrest ed among the underlimah by a sound of falry artillery, or even been hit on the cheek by a solid piece of aumminition in the shape of a glossy black seed? saks Dora itead Goodaia in St. Nicholas. Looking about for your assalisht, you see only a tail shrub, whose leades? branches are hing with fringes of gold. and wonder, perhaps, why those del icate blossoms mature at a time when most wild flowers have finished their season's work-when, as Bryant says:

"Frosta and shortening days portend The aged Year to near his end." But look closer among those tardy gold fringes and you will see clusters of short time, with the helpers who voloddiy shaped pods, some empty and vawning like ministure cannon, others still loaded and ready to fire their handsome little missiles when the right moment arrives.

This curlous shruh, which takes a whole year to mature its fruit, is tha witch-hazel, or hamamells-the same

POP GO THE LITTLE SEEDS.

that we know as a bottle-genlus ready to cure our cuts and bruises. To see how the shooting to done, it is worth while to bring a branch of the saedpods ladoors and to study their mechanism more at leisure. As the fruit ripens the outer coat of the pod separates from the inner, and this outer shall splits down from the top, while the elastic inner covering also splits, and its edges press on the seeds. This prassure in time expels the hard little nut in much the same way that an apple-seed (almost identical in shape) is "fired" by the pressure of a boy's thumh and forefinger.

The witch-hazei always impresses me as a very spirited plant, full of will power and energy, and determined that its children shall have a good start in the world. It is said that its seeds are sometimes thrown a distance of 45 feet, and, while I cannot vouch for this, I do know that they will strike one very forcibly at a distance of 12 or 15. By this ingenious contrivance the young witch-hazel folks begin life at a distance, where the ground has been neither shaded nor axhausted by the parent bush.

The witch-hazel is common over all eastern America, and any young naturalist may sea it sowing its crops or lighting the woods with its elfin smile as late as Thanksgiving day.

HEROIC LIFE SAVERS.

Deserves to lie tonoristized in Proce and Verse.

In St. Nicholas Lieut, Worth G. Ross, Policed States revenue cutter service, tells of an extraordinary rescue on the shore of Lake Superior. A schooner and steam barge were stranded at Marquette, and after making heroic

RUSHING THROUGH THE TEMPLET

afforts all day long to succor the survivors, the would be reseners telegraphed to a regular life say ng crow. Some one proposed this as a hist resoit. It seemed like it fororn hope, for the nearest station was then at Ship canal, 110 miles distant! However, the chance, meager as it locked, was considered worth taking, and arrangements were at ours hagun to bring the life loat and its erew. A telegram, which had to be carried alx miles by a tog, was sent to the keepof the sailers. The managers of the railroad offered a special train to bring the surfmen and the rapparatus to Marquette. As soon as the keeper received the measage, he aid his men, with the life boat, wheek gun, and all necessary appurtenances, were taken waiting a train consisting of an engive, a passenger coach and two flat cars. it took the life-savers but a unteered, to put the apparatus on board the cars and secure it, after which the train sped swiftly out Into the night on her merciful errand, followed by the resounding cheers of ple from their sins," has poured into the crowd of persons who had come upon the scene.

i'erhaps uo life-saving crew had ever before started out on a journey sa exceptional. They were stirred to the noblest impulses by its intense significance, and had determined omang themselves to do or die in the perllons task before them. Although the track was heavy with snow, the powerful locomotive raced on at high speed through the driving tempest, at times almost reaching the rate of a mile a minute. The coating of snow made the engine and cars look strangely grotesque as the train pulled into the railway station at Marquette, after a run (with lte necessary stoppages) that had never been matched under the eircunistances It was nearly midnight when the crowd of expectant and cheering men heiped the life savers and their appliances from the cars. Wagons and sleigha had been provided to take them to the lake, and also a pientiful supply of food for the halfstarved sailors when they should be

brought ashore. After a hard trip along the dark beach, in the wash of the surf, which was thick with driftwood, the stationcrew finally arrived abreast of the vessels. A throng of people were there before them, anxiously awaiting their arrival. The bunfires which had been kept hurning gave needed light to the workers, and, in view of the great seas that were tumbiing in, it was thought best to attempt first a rescue by means of lines. One was fired over the steam large amidships, but it appears that the saliors were prevented from getting it by the rush of breakers across the decks. The keeper now decided to use the boat. There were two reefs to pass, over which the waves were dashing with frightful fury. The lifeboat crossed the first one, shipping three seas on the way; but, the rudder becoming disabled, the men were obliged to return. While repairs were being made another shot was fired over the vessel, but no one reached the line.

At daybreak the hout was again launched, and by atrennous and undaunted exertions the oursmen held to their work, succeeded in crossing the reefs, aliva with foaming breakme, and got alongside the burge. By

CHRISTMASTIDE.

All hall the Christmastide, to us this day A babe was 11+, and yet the "new-horn King."
To whom all peoples toyons tribute bring.

then you sahalf he a happy Christmastide,
J. Hyrraton builth, in Chicago Standard.

CHRISTMAS CHEER.

The Season Pre-Buluentty One of firsticerty Love-Peace and lived Will on Earth.

lly common consent, Christmas is the cheeriest season of the year, There are other festive occasiona, such so Thanksglving, which bring joy to many homes, and there are other feasts, such as illuster and Whitsuntide, which have considerous places on the calendars of the inturgyloving sects. Itut by a process of avoint on, which is partly religious and partly aberal, Chilatinas emerged as the most prominent feast of the church year in the estimation of the majerity.

Christmas despite the excessive entimes as in of some and the associal indifference of others, is preperly a season of cheer. It is well to have, at least, ore season of the year when tile carea of life cease for a little their hand gunding, and all try to lonk happy, even if they do not feel so. Christmas abear should be amphaticalli, in the deeper sense of the term. good chaer. There is no hirthday so deserving of celebration as that of the er of the station, telling of the peril Lord thrist, which makes possible any Christmas at all, and Christmas ran he in no wise truly observed where the spiritual significance of the advent for la forgutten. The real meaning of Christmas resides primarily not in the passing of gifts from man to man, but in the giving of the on the tng, which steamed as fast as one unspeakable gift from tiod to she could to lloughton, where was ninn, Its joy is emphatically a tiospel joy. The mirth may be hearty and varied, but it must be a godiy mirth. If it rollicks it should not riot: if it infects hearts with a contagions give the gladness should be su contpouring from heart to heart of the great joy of saivation which God, in sending a Jeans who "shail save lils peoall humble souls.

Christmas cheer! Let It be full. rich, freel Let it serve as the recognition and expression first of all of the abounding grace of a redreming God, and secondly of that good-will among men which is the proper and logical result of the Gospei of Ilis. dear Son. For he only can be ready cheerfol who shuls his heart to all malice, hatred and jealousy, and who opens his heart wide to the graces of good-will, mercy and generoalty. The spirit of Christmas is that of brotherly love. its outward festivities are the natural and inevitable expression of a joyous sense of the nearness both of God to man and of man to man Observed in this spirit, and marked not only by thoughtful exchanges of tokens of esteem between attached friends, but aim by generous gifts to the poor and unfortunate. Christmas will prove a day of rare delight and spiritual profit. For he will have most of Christmas cheer in his own soul who, in imitation of the great gift of God's dear Son, givea imedif with his gifts in ministry to his fellows, and who must seeks to make Christian cheer to abound in the now shadowed hearts of his fellow men. N. Y. Observer.

Besides this, we have in our country plenty of room, while the trans-Atlantle nations are crowded-crowded cities, crowded governments, crowded In anticipation of what is sure to learned institutions; the population come, I nall on the front door of this crowdled, packed in between the Pyrenees and the Alps, packed in between the English channal and the Adriatic. Yes, on our continent plenty of room. Eight million square miles in North America and all but one-seventh capable of rich cultivation, implying what fertility and commercel Four basins pouring their waters into the Atlantle. Pacific. Arctic and Gulf of Mexicol When I hear a mun expressing the faar Wanted .- All the clocks you can that this country is going to be crowded, I know right away he has not been In Texas. France bas about 59,000,000 of people, but Texas is larger than France; Germany about 67,000,000 of people, but Texas is larger than Germany.

Again, there is no land on earth where the political condition is so satisfactory as In ours. Every two years nntlon we clean house. After a vehement expression of the people at the ballot hox in the autumnel election they all seem satisfied, and if they are Wanted. - Ministers to evangelize not satisfied, at any rate they smile. An Englishman asked me in an English rall train this question: "Now do you people stand It lu America with e revolution every four years? Would it not be better, like us, to have a queen for a lifetime and everything settled?" But England changes government just as certainly as we do. At some adverse see to it that we get what belongs vote in purliament out goes one party and in comes another. Administrations change there, but not as advantageously as with us, for there they may change almost any day, while with the Aztecs. Much of the \$125,000,000 us a party in power continues in power

It is said that in our country we have more dishonesty in the use of public funds than in other lands. Tha difference is that in our country aimost every officer has a chance to steal, while in other lands a few people absorb so much that the others have no chance at appropriation. The reason they do not steal is because they cannot get their hands on it. The governments of Europe ara so expensive that after the salaries of the royal families are paid there is not much left to misappropriats. The emperor of Russia has a nica littla salary of \$8,210,000. The amperor of Austria has a yearly ralary of \$4.000,-000. Victoria, the queen, has a salary of \$2,200,000. The royal plate of St. James palace is worth \$10,000,000. There is a host of attendants, all on salaries, some of them \$5,000 a year, some \$6,000 a year., Comptroller of the household, mistress of the robes, captain of gold stick, lieutenant of silver stick, clerk of the powder closet. pages of the back atnirs, master of the horse, chief equerry, equerries in ordinary, crown equeery, heredltary grand falconer, vice chamberlain, elerk of the kitchen, grooms in walting, tords in walting, grooms of tha court chamber, sergeant-at-arms, barge muster and wnterman, eight beilchamber women, eight ladies of the bedchamber and so on and so on. All this is only a type of the fabulous expense of foreign governments. All this is paid out of the sweat and blood of the people. Are the people satis-However much the Germans fled? like William, and Austria likes Franeis Joseph, and England likes her empress, near the most colomn hour glerious queen, these stupendous goveramental expenses are built or

group of discationation as wide a Europe. If it were left to the people Russia whether these sxpansivs estebdoubt what the vote would be? Now. the land than to have it bulit up and piled up inside of paiscee?

Continuing this international somparison, I have to say to you that we have a batter climate than is to be found in any other nation. We do not suffer from anything like the Scotch mists or the English fogs or the Russian ice biasts or tae typhus of southern Europe or the Asistlo cholera. Epidemios in America are exceptional, very exceptional. Plenty of wood and coal to make a rosring fire midwinter, easy access to sea beach or mountain top when the ar-dors of summer come down, Michigan wheat for the bread, Long Island corn for the mesi, Carolina rice for the queen of puddings, Louisiana augnr to sweeten our beverages, Georgia cotton to keep us warm. In our land all products and all climates. Are your nerves weak? Go north. your throat delicate? Go south. Do you feel crowded and want more room? Go west. I declara it: This is the best country in ail the world to live in. How do I know it? I have 650,000 new reasons for saying lt. Six bundred and fifty thousand people in one year came from tho other side of the Atlantic to live in America, and they came because it is the very best country to live in.

While making this international comparison let us look forward to the time which will eurely come when all nations will heve as great edvantages as our own. As surely as the Bible is true the whole earth is to be gardenized and set free.

Many years ago in this city I gazed upon a seene which for salamity and grandeur one seldam sees equaled. I mean the burning of the Smithaonlan institution. It was the pride of our country. In it art had gathered rarest specimens from ail lands and countries. It was one of those buildings which seize you with enchantment as you enter, and ell the rest of your life holds you with a charm. I happened to see the first glow of the fires which on that cold day looked out from the windows of the costly pile. I saw the angry elements rear and rave. The shout of sfirlghted workmen and the assault of fire engines only seemed to madden the rage of the monsters that rose up to devour ail that came within reach of their chain. Up along the walls and through the doors were pushed hands that anstched down all they could reach and hurled it into the abyss of finme beneath. The windows of the tower would light up for a minute with a wiid glare and then darken, as though fiends with streaming locks of fire had come to gaze on in laughing mockery at all human attempts and then sunk again into their native darkness. With crackle and rear and crash the floors tumbled. The roofs began here and there to blossom in wreaths and vines of flame. Up and down the pillars ran serpents of fire. Out from the windows greet arms and fingers of fisme were extended, as though destroyed spirits were begging for daliverance. The tower pnt on a coronet of fiame and staggered and fell, aparka flying, the firemen escaping, the terror accumulating. Books, meps, rare correspondence, outographs of kings, costly diagrams burned to cinder or scattered for many a rood upon the wild wind, to be picked up by the exin the state and every four years in the cited multitude. Oh, it ecemed like come great funeral pile in which the wealth and glory of our land hed leaped to burn with its consuming treasures. The beavens were blackened with whirlwinds of smoke, through which shot the long red shafts of calamity. Destruction waved its flery banner from the remaining towers, and in the thunder of falling beame and in the roaring surge of biliowing fire I heard the spirita of ruin and desolation and woe clapping their hands and shouting: "Ahal abai"

> dome of yonder capitol, which rosa through the frosty air as imposing as though all the white marble of the earth bad come to recurrection and stood before us, reminding one of the great white throne of Heaven. There it stood, unmoved by the terrors which that day had been kindled before it. No tremor in its majestio columna, no frown on its magnificent aculpture, no flush of excitement in its velna of marble. Column and capital and dome. built to endure until the world itself shatters in convulsions of the last earthquake. Oh, what a contrast between the smoking ruin on the ons hand and that gorgeous dream of architecture on the other! Weil, the day speeds on when the grandest achievement of man will be consumed and the world will blaze. Down will go galieries of art and thrones of royalty and the hurricane of God'e power will scatter even the nahes of consumed greatness and glory. Not one tower jeft, nut one city unconsumed, not one scene of grandeur to relieve the desoiation. Foresta dismasted, seas licked un, continents sunk, hemispheres annihilated. Oh, the roar and thundering crash of that last confiagration! But from that ruin of a blazing earth we shall look up to see the temple of liberty and justice rising through the ages, white and pure and grand, unsearred and unshaken. Founded on the eternal rock and swelling into domea of infinitude and giory, in which the hullcluiahs of Heaven have their reverherntion. No flame of buman hate shall blacken ita walls. No thunder of Infernal wrath shall rock its foundstions. By the upbeld torches of burning worlde we eball read it on column and erchitrave and throne of eternal dominion: "Heaven and earth shall pass away, but truth and liberty and justice shall never pass away."

I turned and looked upon the white

ETHODS OF MORMON MISSIONARIES.

BY REV. WM. R. CAMPBELL.

Since the Mormons have been increasing at such a great ratio the past few years, it is interesting and important to know the secret of this phenomenal growth.

My twelve years' study of Mormon- ents ism, while laboring in the capacity of a Christian missionary among the livering coal to the persons from Mormon people in Utnh, together whom he secured orders. with several months' experience with the Mormon missionaries who were Merritt have gone to school at Berea. making "converts" in various parts of our country ontside of Utah, noting their methods and their success, has convinced the writer that Mormonism son was striken with paralysis a few grows neither because of its merits as days ngo. This is a second attack a system of moral or religious truth, she has experienced; it is feared she nor alone by appealing to the deprav- may not recover. it of the human heart.

If Mormon missionaries were honest enough to begin their efforts with those whom they would "convert" by telling the real truth about Mormon doctrines and practices, they would not make a single convert among decent and intelligent people; but having been trained in the school of deception from their earliest infancy, they come into the homes of unsus- Glad to welcome them. pecting people to lead them into the same false ways in which they have been reared. It is perfectly consistent for them to practice all sorts of cunning and deception, as their god have set them abundant examples in system. Price, 50 cts. S. E. Welch Jr. enter school. these lines from the beginning. If the reader chooses to make a careful study of Mormonism by following up the reading of this leaflet with a careful study of the entire series of which this is the beginning, he will find that this statement is not any too strong, however extravagant it may seem to him at first.

Let no one, however, imagine for a moment that the writer means to at Flat Lick, Wednesday. leave the impression that the Mormon missionaries are not sincere in their faith. If they were not sincere, they could not succeed, as they do, in making proselytes; but being sincere, they believe with all their hearts, because they are so trained, that the end justifies the means, and that any sort of deception is justifiable, if it only helps to "win converts and save souls," as they understand.

When Mormon missionaries come into a new community, they do not sound a trumpet before them, as they have found out by long experience that this does not pay. They often tubes 75 cts. S E. Welch Jr. are in a community for some time before they make themselves generally k nown. Finding Christian people off their guard, they "spy out the land" and find out all they can about local Sunday School will have a Chrismas church life, who are professing Chris- tree and exercises, Wednesday night, tians and who are not, how consistent Dec. 26. are the lives of those who are church manbara, who are lukewarm and in- home in the East end. different. As a rule, they find little difficulty in proselyting those who are weak in the faith, or dissatisfied with their present church relations.

When they are ready to "work" or to "tract" a community, they generally plan to visit systematically from house to house, aiming to call at least three times at each house at short intervals of a day or a week or Sallie Morton, on the Fleming pike, two, depending somewhat upon cir- are sick with the fever. Any attencomstances and upon the degree of tion they may receive will be greatinterest or repugnauce manifested by the persons visited.

On the first visit they aim to leave a truct snited to the "state of mind" the person may be in, provided they have had an opportunity to ascertain High School. what that "state of mind" is. If the way is open they will make a "friendly call," or even an extended visit upon a person before presenting the tract. There are generally two of them, as they aim to go two by two, depends upon health. If they are And Monthon THE CITIZEN. "as the seventies in the days of the troubled with worms, they will be ir-Saviour." The principal aim in this ritable, cross, feverish, and perhaps A first eall or visit is to make themselves agreeable and "become acquainted," to "gain the confidence" of the proposel "converts." If the Mormon Price 25 cts. S. E. Welch Jr "elders" or missionaries were to call upon you and find you off your guard, they would make themselves so agree able that you would be made to feel that they were about the most pleasaut fellows that you ever met. They would talk so as to arouse your curi. osity, but at the same time avoid, as. far as possible, giving you any clear idea of their real character or intentions. The object of this method is to lead you to welcome them to your house again in order to learn more about them.

Save the Forests. 1' Brown, Secretary of Indiana Forestry As

The rain, upon which we depend for every farm crop, has become irregular since the denudation of so vast timber areas.

Each summer we see protracted drouth; streams which formerly were permanent in their flow, have become dry beds; immmerable springs, which were the reliance of our fathers, now cease entirely for months; in many places stock must be driven long disbinees for water to sustain life; erops of grain, grass, fruit and all vegetation soffer in midsummer, often fuil ing entirely, over large areas, as the clouds fail to send us rain.

Atter a season the rains come in torrents and cease not; the soil is washed from the billsides; desp gullies are cut in the sloping fields; the roots and vegatable deposits of the forest having decayed are swept by the qurrent into the strenns and by them. turne to the ocean.

The Ohio river which was but two or three feet in depth during the drouth, rapidly rises as streams from every direction are poured in, when it renches the height of 71 feet, sprends wer farms and villages along its course, emissing great destruction all the way; while the Mississippi over flows its banks, pouring its flood forty miles in width through Missouri and

A moderate proportion of forest land, properly distributed, would remesly this great evil, or at beast moderate it, by holding back in the spengy soil and leaf mould a portion of water into time of need

Extensive woodlands are the very best reservoirs for the peen mulation of surplus water which falls as rain or snow; and when times of drought come these reservoirs gradually feed springs and streams, making them pernumbent, while evaporation from forest tracts makes a moist atmos-

Agriculture bas become unprofita ble upon thousands of billsides from which the soil bas been washest, leaving rocks projecting from a hard subsoil, difficult to cultivate and more numerative.

Such tracts can be prolitably plantest with some kinds of forest trees, which is time will renew the fertility of the bind and enrich those lields below, which receive the wash from these woodlands.

It is well known that a certain quantity of moisture is essential to the growth of every form of vegetation, the crops which ap grown for the use of men requiring a greater supply of water than plants which have idapted themselves by centuties of succession to an arid situation.

It is not so well known, yet it is an an a pually positive proposition, that forest growths are necessary to a regular supply of moisture, and, as a consequence, to the success of agricultural crops.
